

Have your say

BHIVA Standards - consultation

THE BHIVA Standards of Care for People Living with HIV were last updated in 2013. BHIVA has been funded by MAC AIDS Fund to update these standards to include the latest recommendations for HIV care and address the changing UK health and social care arrangements. We would like to hear your views on the current standards and what, if anything, you would like to see included or dropped in the future standards.

On Friday 7 April 2017 at 1000–1030 there will be an interactive session in the lecture theatre to introduce the project. To facilitate discussion at this session, it would be helpful to have some of your views in advance.

Please take the time to complete the table overleaf and drop the form into the box at the exhibition stand or the BHIVA conference registration desk. Alternatively, you can email Dr Alison Howarth (alison.howarth@ucl.ac.uk) or BHIVA (bhiva@bhiva.org) or come and talk to us at the stand in the exhibition and catering area.

Thank you

Fiona Burns, David Chadwick, Sheila Morris and Ann Sullivan
Joint Leads, BHIVA Standards Steering Group

What Standards currently work well? And if so why?

What aspects of current Standards need updating?

Are there any new topic areas you would like to see included in the new Standards? Please specify

Would you like to be formally involved in updating the Standards and if so in which area?

Name & email (optional)
