Registration

Registration includes access to all scientific sessions, including satellite symposia, the exhibition area, refreshments and lunch for the days specified in your registration acknowledgement correspondence.

Delegate badges

Badges must be worn at all times to gain access to the lecture theatre, catering and exhibition areas.

Accompanying persons *Pre-booked and paid only*

Accompanying persons' fees include attendance at the Welcome Reception and Gala Dinner. Each event is individually priced. These tickets must have been requested and paid for in advance of the conference. Please note that these fees do not cover attendance at the scientific sessions, exhibition or catering areas of the conference..

BHIVA/BASHH Lunchtime Workshops

BHIVA/BASHH workshops are limited to 80 persons. Doors will open 15 minutes prior to these workshops and places are available on a first-come, first-served basis. Each workshop will begin promptly. Lunch packs will be provided for delegates attending these workshops.

BHIVA Hepatology Highlights for the Healthcare Specialist

BHIVA in collaboration with the British Viral Hepatitis Group will be holding a separate Hepatology Highlights meeting prior to the conference from 1400-1630 on Tuesday 17 April 2018. This free-to-attend meeting is open to all registered conference delegates.

Continuing Professional Development (CPD)

Medical staff in career grade posts who are enrolled with one of the Royal Medical Colleges for Continuing Professional Development will be entitled to receive CPD credits at the rate of one CPD credit per conference hour (exclusive of travel, refreshments, pharmaceutical-supported sessions and social events). The unique reference code for the conference is **116402**. The entire conference has been allocated 22 CPD credits. Please be advised that the attendance list of the conference will be forwarded to the Royal College of Physicians upon request.

Poster presentations

The poster judges will select 20 posters (10 HIV and 10 Sexual Health) to be highly commended and from these, six (three HIV and three Sexual Health) will be presented as part of the Oral Research Poster Presentations session at 1200–1230 on Friday 20 April. Poster presenters are required to prepare a few slides prior to the conference to highlight the main points of their poster. We would encourage all poster presenters to check the Registration notice board at 1830 on Thursday 19 April to see whether they have been selected. The Best HIV Poster and Best Sexual Health Poster Presentation prizes will be awarded at the Prizes and Awards Ceremony on Friday 20 April from 1430–1445.

Oral research presentations

Oral research presenters are reminded to ensure they bring their oral research presentation slides to the conference in addition to sending them to the Conference Organisers in advance. Any slides must be passed to the audio-visual technicians in the Speakers' Preview Room (Soutra Room), Level 0 in good time for their session (minimum 2 hours in advance). Oral research presenters may make use of the Speakers' Preview Room to review their slides prior to presentation. The Best HIV Oral and Best Sexual Health Oral Presentation prizes will be awarded at the Prizes and Awards Ceremony on Friday 20 April from 1430–1445.

Cloakroom

A manned cloakroom is available onsite at EICC. All belongings are left at the owner's risk. BHIVA and BASHH do not accept responsibility for the loss of personal property stored in the cloakroom.

Exhibition

The exhibition represents an integral element of the conference, providing participants with an excellent platform for networking as well as an opportunity to gain further insight into cutting-edge technology, the latest healthcare solutions, and services within the field of HIV and GU medicine. Entrance to the exhibition hall is free for all registered delegates.

CONFERENCE INFORMATION

Filming and photography

Please note that all sessions held in the lecture theatre (Pentland Suite) will be filmed and uploaded to the conference website following the event. In addition, some still photography will take place at the conference. This will include general coverage of registration, exhibition and workshop areas, as well as conference social events. This material may be published in BHIVA/BASHH publications or on the conference website and on BHIVA and BASHH social media pages.

START WITH TRIUMEQ—
powered by dolutegravir, offering your
patients all of the following:

CONFIDENCE

A potent regimen with **SUPERIOR EFFICACY** in treatment-naïve patients vs Atripla and atazanavir/r (in women)^{1,2}

DURABILITY

A dependable regimen with a **HIGH BARRIER TO RESISTANCE**¹⁻³

REASSURANCE

A convenient booster-free regimen with **FEW CLINICALLY SIGNIFICANT DRUG-DRUG INTERACTIONS**³

 **Triumeq▼**
dolutegravir/abacavir/
lamivudine

TRIUMEQ is indicated for the treatment of HIV-infected adults and adolescents above 12 years of age weighing at least 40 kg.

Before initiating treatment with abacavir-containing products, HLA-B*5701 status must always be documented. Abacavir should not be used in patients known to carry the HLA-B*5701 allele due to the risk of hypersensitivity reaction.

Prescribing Information

Triumeq▼ dolutegravir 50mg/abacavir 600mg/lamivudine 300mg tablets
See Summary of Product Characteristics (SmPC) before prescribing.

Indication: HIV in over 12 years and ≥ 40 kg. Screen for HLA-B*5701 prior to use. Do not use if HLA-B*5701 positive. **Dose:** one tablet once daily with or without food. **Elderly:** Limited data in 65+ yrs. **Creatinine clearance** <50 ml/min or moderate/severe hepatic impairment: Not recommended. Monitor closely in mild hepatic impairment. **Contraindications:** Hypersensitivity to any ingredient. Co-administration with dofetilide. **Warnings/precautions:** Both abacavir and dolutegravir are associated with risk of hypersensitivity reactions (HSR). Do not initiate in HLA-B*5701+ or previous suspected abacavir HSR. Stop Triumeq without delay if HSR suspected. Never reintroduce any dolutegravir- or abacavir-containing product after suspected HSR. Risks of immune reactivation syndrome, osteonecrosis, increased weight, lipids, glucose. Monitor LFTs in Hepatitis B/C co-infection. Inconclusive data on relationship between abacavir and MI; minimise all modifiable CV risk factors (e.g. smoking, hypertension, hyperlipidaemia). Not recommended if dolutegravir required b.d. (with etravirine (without boosted PI), efavirenz, nevirapine, rifampicin, boosted tipranavir, carbamazepine, oxcarbazepine, phenytoin, phenobarbital and St John's Wort). Use with cladribine not recommended. Use with Mg/Al-containing antacids, calcium,

multivitamins or iron requires dosage separation. Caution with metformin: monitor renal function and consider metformin dose adjustment. When possible, avoid chronic co-administration of sorbitol or other osmotic acting alcohols (see SmPC section 4.5). If unavoidable, consider more frequent viral load monitoring. **Pregnancy/lactation:** Not recommended. Avoid breast-feeding. **Side effects:** See SmPC for details. Headache, insomnia, sleep/dream disorders, GI disturbance, fatigue, hypersensitivity, anorexia, depression, dizziness, somnolence, lethargy, malaise, cough, nasal symptoms, rash, pruritus, alopecia, arthralgia, myalgia, asthenia, fever, elevations of ALT, AST and CPK, blood dyscrasias, suicidal ideation or suicide attempt, rhabdomyolysis, lactic acidosis, erythema multiforme, Stevens-Johnson syndrome, toxic epidermal necrolysis. **Basic NHS costs:** 30 tablets: £798.16 EU/1/14/940/001.
